Project Summary

Taxlinked.net is an international online tax community based outskirts of Europe. It is a unified café or an online meeting point for the acclaimed tax professionals, fellow advisers, lawyers, law firms, trustees, banks, company formation agents and tax clients looking for the futuristic opportunities in the tax stream.

Taxlinked network was in a deep need to design an ultimate hub and a harbor for the intellectual members who can avail the chance to get interactive with the concentrated tax professionals materials, messages, comments and more. The prospective project be helpful in rewarding financial gains along with the expansion of the knowledge graph of every individual/groups in the tax circuit.

Executive Summary

- ❖ Client's web apps were missing with the basic search features which were obstructing its members to surge for the required data.
- ❖ It's less-efficient application lacked smooth navigation leading to the devaluation of website performance.
- ❖ Moreover, the management of Taxlinked network had perceived extreme delays in the registration process/member connections that in turn affected the business.

Challenges & Implications

- ❖ Developing a user-centric system that can integrate Algolia alternative was a rock-challenge
- ❖ Achieving grave integrations with 3rd party application for obtaining global data was a challenge
- ❖ Algolia has the strength to grab the crude data without any filtration that caused severe performance issues on the health of the system

Solution

Raybiztech's IT advisory division had reviewed the choking applications of the client. After rings of discussions and creative idea generation sessions with the Taxlinked shareholders, Raybiztech has consequently prescribed a solution that can add tonic effect to the web search application.

- ❖ Raybiztech and its exhaustive Delphi techniques have enabled the client to get over the momentous project. It has suggested Taxlinked network to opt for a web search product named as Algolia, the most reliable platform/building block for frictionless search experience

- ❖ Recommended Kentico Content Management System glazed with Web API to enforce complex integrations

- ❖ Powerfully hosted web search tool with customized filters for fast & relevant search results

- ❖ Integration with Algolia address worldwide search difficulties and thus brought the business margins back to shape

Benefits of Kentico WCMS on Business Cases

- ❖ Remedial web search hosting allow varied customers from different cultural backgrounds to interact with each other for monetary benefits
- ❖ Prodigious program plugged with Kentico CMS facilitate worldwide search

Key criteria for selecting Kentico CMS

- ❖ Hassle-free Kentico CMS 8.2.24 serve all of the desired modules with integrations of high intensity
- ❖ Content staging option enable working with varied versions of the hosted site
- ❖ Document Management System achieved for silky smooth workflow
- ❖ Persistent UI frameworks prevent blockade of the business
- ❖ Provide a means to fast integrate with 3rd party applications using Web API
- ❖ Choosing between the best possible options "Code First" & "Data First" facilitated
- ❖ Enables RAD- Rapid App Development
